

Cody Liam Nicholson

codynicholson96@gmail.com | (224)-324-2796

- Education:** DePaul University - Chicago, IL
Bachelor's Degree in Computer Science expected in June of 2018
GPA: 3.5/4.0
- Experience:** *Full-Stack Development Intern:* CDK Global, June 2017 – August 2017
- Engineered software to complete various stories I received during our two-week sprint cycles using technologies including: Angular, C#, JavaScript, TypeScript, Visual Studio, ASP.NET MVC, .NET Core, HTML, CSS, Jasmine
 - Led a Hack-a-thon team in creating a web application to determine RGB values from given color names using data mining techniques
- Software Engineer:* CNA Financial, September 2016 – June 2017
- Engineered a software system to preform automated functional testing of many of the company's projects
 - Created an excel spreadsheet generator that works alongside the functional automated testing system to export test results in a format that the business team could understand
 - Brought in new employees and taught them how to automate user stories using selenium webdriver, Java, and XPath
- Projects:** *Enodo:* Capstone Project – DePaul University, January 2017 – March 2017
- Led the team as the project manager after my proof of concept was approved by all the other team members
 - Designed and implemented our database system using Entity framework with a code-first approach which included user, survey, and survey results tables
 - Developed the frontend user experience using: Razor Syntax to parse through and display data, jQuery data tables to list users and surveys, jQuery sortable library to create the drag-and-drop survey taking interface
- Awards:** Eagle Scout, August 2014
- Skills:** Java, C#, Python, SQL, jQuery, HTML, CSS, Linux, JavaScript, TypeScript, Leadership, Git, Agile, ASP.NET MVC, Entity Framework, OpenCV, TensorFlow, Linux, Data Mining
