

Cody Liam Nicholson

codynicholson96@gmail.com | (224)-324-2796

- Objective:** To obtain a position at your company
- Education:** DePaul University - Chicago, IL
Bachelor's Degree in Computer Science expected in June of 2018
GPA: 3.5/4.0
- Experience:** *Full-Stack Development Intern:* CDK Global, June 2017 – August 2017
- Engineered software to complete various stories I received during our two-week sprint cycles using technologies including: Angular, C#, JavaScript, TypeScript, Visual Studio, ASP.NET MVC, .NET Core, HTML, CSS, Jasmine
 - Led a Hack-a-thon team in creating an artificial intelligence to determine RGB values from given color names using data mining and a neural network
- Software Engineer:* CNA Financial, September 2016 – June 2017
- Engineered a software system to preform automated functional testing of many of the company's projects
 - Created an excel spreadsheet generator that works alongside the functional automated testing system to export test results in a format that the business team could understand
 - Brought in new employees and taught them how to automate acceptance tests
- Projects:** *Portfolio Website:* <https://codynicholson.github.io/>, September 2016
- Designed and developed a homepage with a cover letter that includes a parallax header and footer along with a pop-up 'Contact Me' model
 - Created a resume page that is populated almost entirely by external JavaScript JSON files, making it easy to add more work experience, projects, schools, etc.
 - Researched and learned how to use various tools including: JavaScript, jQuery, Bootstrap, and Google APIs
- Awards:** Eagle Scout as of August 2014
- Skills:** Java, C#, Python, SQL, jQuery, HTML, CSS, Linux, JavaScript, TypeScript, Leadership, Git, Agile, ASP.NET MVC, Entity Framework, OpenCV, TensorFlow, Linux, Data Mining
- Portfolio:** <https://codynicholson.github.io/>
